

# Flexible Consumer Collection

---

Following is a list of options and security bits that should be reviewed in order to properly activate Active Viewers in Eagle N Series.

## **Options**

Option ID 1498 will have to be set to 'Y' to access Flexible Consumer Information Maintenance.

The utility has means to trigger the items below and these options will no longer apply after 1498 is set to Yes:

- 5494 - Require cash customer information on a return
- 9279 - Does Prompt for Customer Info in POS apply to all customer types?
- 9280 - Required fields in POS Cash Customer Information window
- 9281 - Require zip code (or other information) for cash customers

## **Security**

Access to this setup utility requires Security Bit 446 "Allow updating of options".

To utilized Consumer Information Codes in IMU you will need Security Bit 228, "Change Inventory Codes Information"
