

Review your settings for Option ID 437. To utilize the Streamlined Prepaid Voucher process this must be set to 'Yes'.

The screenshot shows the 'Options' window for Store 1, Terminal 787, signed on as ONDEMAND. The 'Options Group' is set to 'All Options'. The table below shows the configuration for Option ID 437.

ID	SubSystem	Description	Current Value	Message	Kept By	Available Domains	Edit?
437	A/P	Allow streamlined Prepaid Voucher entry in ATMU?	Yes		System	*System, Store	Yes

The description for Option ID 437 is: "Streamlined ATMU Voucher". The message text reads: "If this option is set to Yes, the 'Prepaid' button in the ATMU toolbar will allow streamlined entry of a Prepaid ATMU voucher. The fields are limited to Vendor, Invoice Number, Check Number, Check Date and Check Amount. The voucher and invoice date will default to today's date. The user will still be allowed to enter the GL distribution if the vendor is not setup for auto-distribution."

The Streamline Process also requires a 'Yes' setting for Option ID 8888, 'Eagle N Series on System'.

The screenshot shows the 'Options' window for Store 1, Terminal 787, signed on as ONDEMAND. The 'Options Group' is set to 'All Options'. The table below shows the configuration for Option ID 8888.

ID	SubSystem	Description	Current Value	Message	Kept
8888	SYSTEM	Eagle N Series on System	Yes		System

The description for Option ID 8888 is: "Eagle N Series on System". The message text reads: "Is this an Eagle N Series system? When set to Yes Eagle N Series features are enabled."
