In order to create a Dynamic Promotion Type 12 you must have the following three things on your system:

1. Customer Loyalty
2. Dynamic Promotions
3. Dynamic Coupons

If you are unsure about your system configuration, contact your Epicor Customer Account Manager

Option ID 1182, 'Loyalty Program' will need to be set to something other than None.

Enter Loyalty Program

Loyalty Program

D	Do it Best Loyalty
G	Generic Loyalty (with data collection)
L	Local Loyalty
N	None
T	True Value Rewards
Y	Ace Rewards

OK

Cancel

This option is used to select the loyalty program that will be used.

If the customer wants to run multiple loyalty programs on a single Eagle server, one National Account Loyalty program and Local Loyalty, select the national account in this option and then select the local loyalty program in Option 9995 "Additional Loyalty Program on System".
