

There are several Options and Security settings that will need to be reviewed prior to implementing Dynamic Promotions. Please review each carefully.

See the Online Help document titled '**Dynamic Promotions: Set Up Options**'. The following Option ID's are identified and discussed.

- **Option ID 1081**
- **Option ID 9802**
- **Option ID 9807**
- **Option ID 9812 through 9820**
- **Option ID 9849**
- **Option ID 9850**

Additionally, the following Option ID's should be examined by your system administrator.

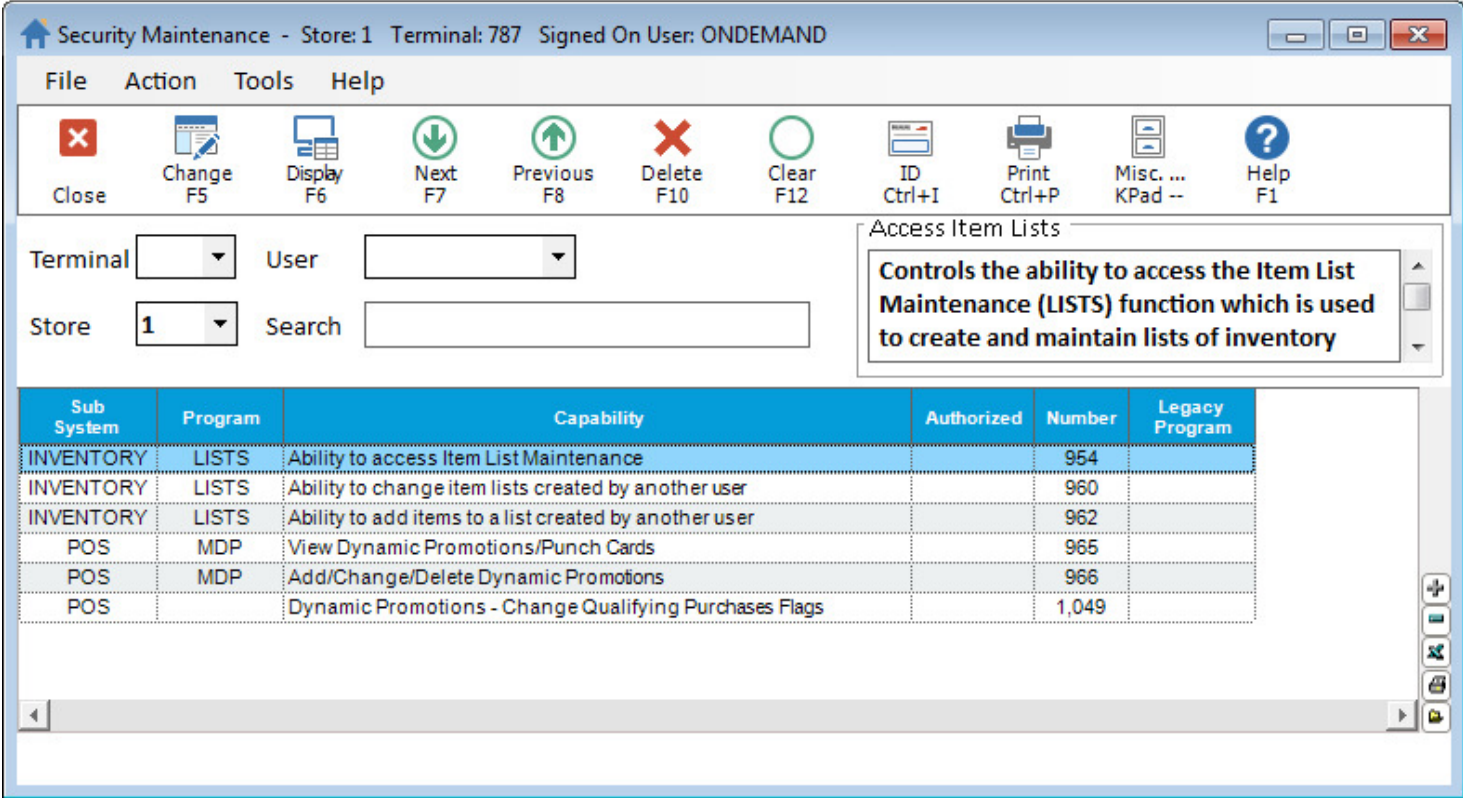

Option ID 610: 'Apply Trade Discount to Promotion Items?' determines if a trade discount is allowed on items that were already discounted during a transaction using the Promo key.

Option ID 9131: 'Dynamic Promotions (BOGO) preview list's contents'. Selection #2 allows your clerk to view the item that triggered the Dynamic Promotion as well as the promo price for the related items.

Option ID 9381: 'allow use of 'timed' promotions'. This option works with both Dynamic Promotions and regular promotion and gives you the ability to run a promotion during specific hours of the day. For example, a Black Friday sale from 6 am to 9 am.

There are six Security Bits related to the set up and maintenance of Dynamic Promotions.

954	960	962
965	966	1049
