

Tablet POS 2.0 Overview Transcript

Tablet Point of Sale is a mobile solution that allows retailers to quickly look up items, search for customers, and perform simple retail checkout anywhere there is a WiFi or cellular connection to the internet.

In this course we will take a closer look at the many benefits of running Tablet Point of Sale. We will examine a few of the products key features and have a quick demonstration of this mobile application.

Eagle Tablet POS enables you to take your POS application right to the customer through the use of almost any Apple tablet device.

You can easily price and check out bar-coded items, as well as search your inventory to locate items of interest

With Tablet POS, you can quickly scan items, perform a credit card or house account checkout, and print or email the receipt to the customer.

Eagle Tablet POS lets you take mobile checkout devices to where your customers are. For example, in the garden shop, next to a promotional display, or during busy hours when lines are becoming long.

Anywhere there's Internet connectivity you can assist your customers.

Tablet POS has many features that can make point of sale easy and quick.

You can look up a customer's account.

Then scan or search for the merchandise they wish to purchase.

Item details and images can also be viewed.

Choose the appropriate quantity and Total the transaction.

Charge the sale to their house account or take credit card payment.

The customer can enter their signature and a receipt is printed or the invoice emailed directly to them.

Mobile POS lets businesses bring their cash register to customers, whether they are attending a sidewalk sale, browsing the garden center, or participating in an offsite event.

A useful tool for 'line busting', your tablet keeps your customers happy and builds loyal satisfied clientele.

Mobile point of sale from Epicor Eagle can help take you take your business to the next level.
