Pharmacy Options and Security Bits
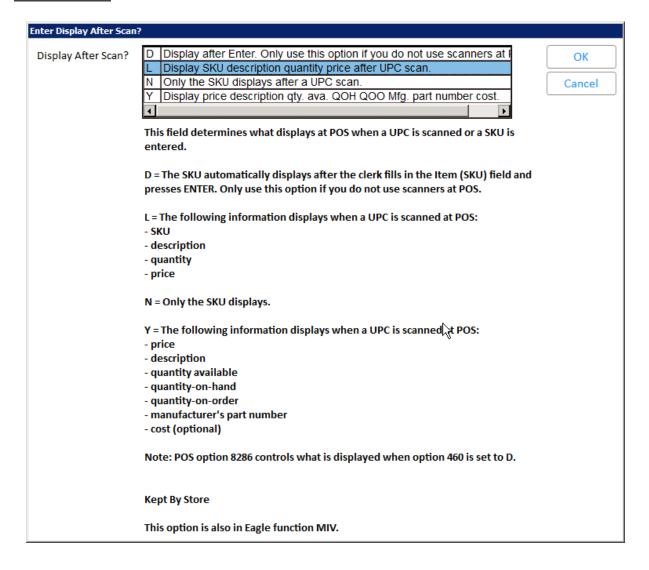

The following Options and Security bits should be reviewed prior to using Eagle Pharmacy.

|	ID	SubSystem	Description	Current Value
☑	1334	POS	Pharmacy Controlled Substance Tracking on System	Yes
☑	9171	POS	Pharmacy integration on system	1=Barcode Only
☑	9173	POS	Pharmacy sku	RX
☑	9180	POS	Pharmacy Prompt Clerk to Ask for Safety Caps	W=Default Ask to Yes
☑	9181	POS	Pharmacy Prompt Clerk to Ask for Pharmacy Consult	X=Default Ask to No
☑	9183	POS	Pharmacy Note to use for Prescription Pickup Signature	
☑	9189	POS	Consolidate Pharmacy Signatures	No
☑	9190	POS	Pharmacy Note to use for Consolidate Pharmacy Signatures	
☑	9565	POS	Pharmacy Post Drug and Patient Name to POS Transactions	Yes
☑	9771	POS	Pharmacy Filled Prescription Flow	All Together w/Name & Address

Option 460

Enter Display After Scan?

Display After Scan?

D	Display after Enter. Only use this option if you do not use scanners at I	OK
L	Display SKU description quantity price after UPC scan.	Cancel
N	Only the SKU displays after a UPC scan.	
Y	Display price description qty. ava. QOH QOO Mfg. part number cost.	

This field determines what displays at POS when a UPC is scanned or a SKU is entered.

D = The SKU automatically displays after the clerk fills in the Item (SKU) field and presses ENTER. Only use this option if you do not use scanners at POS.

L = The following information displays when a UPC is scanned at POS:
- SKU
- description
- quantity
- price

N = Only the SKU displays.

Y = The following information displays when a UPC is scanned at POS:
- price
- description
- quantity available
- quantity-on-hand
- quantity-on-order
- manufacturer's part number
- cost (optional)

Note: POS option 8286 controls what is displayed when option 460 is set to D.

Kept By Store

This option is also in Eagle function MIV.

If Option 460 ('Display' After Barcode Scan?) is set to "D", then Will Call functionality at POS will be disabled.
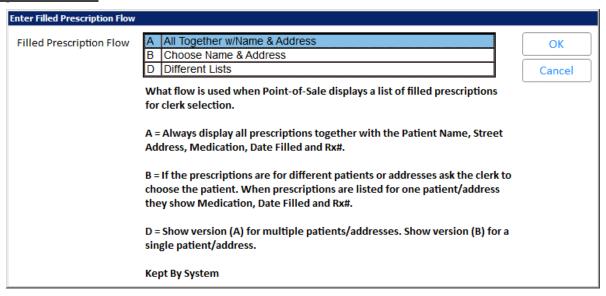

Option 1344

Set this option to YES to enable controlled substance tracking on the system.

Option 9171

Option 9171 allows you to determine the flow that is used when Point of Sales displays a list of filled prescriptions.

Option 9173

Option 9173 lets you set which abbreviation is used for your Pharmacy SKU. Best Practice is to use RX.

Option 9180

Enter Prompt For Safety Caps

Prompt For Safety Caps

N	No
Y	Yes
O	Off
X	Default Ask to No
W	Default Ask to Yes

OK

Cancel

If set to Yes, POS will prompt the clerk 'Does the customer required safety caps?'

Note: If the PMS system sends over a safety cap value setting this option to Yes causes POS to ignore the NoSafetyCaps value coming from the PMS system and always prompt.

If set to NO, POS will not prompt the clerk and post the message comment 'Safety Cap Refused' on the transaction.

Note: If the PMS system sends over the safety cap value this option should be set to No.

If set to Off. POS will not prompt the clerk and no safety cap comment will post on the transaction.

Values X and W only work if option 9171 = P (PDX / EPS). When this option is set to X or W, if the PDX or EPS interface sends the value to prompt the clerk to ask the customer if they want safety caps, the interface will change the value to either Yes or No causing Eagle for Windows to not prompt the clerk to ask the customer for their safety cap preference. Descriptor lines will post according to the rules when PDX or EPS sends a Yes or No.

Kept By System (can be changed)
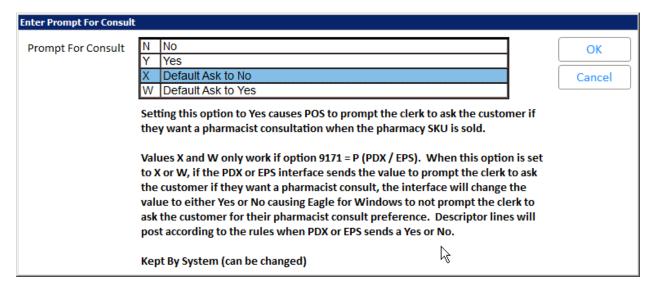

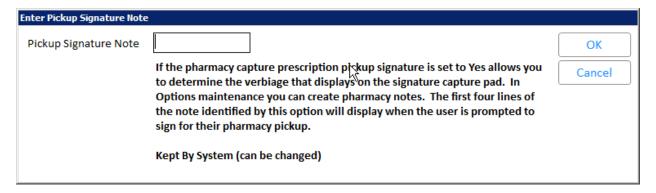

Set this option to Yes to prompt the clerk to ask whether the customer needs safety caps. Best Practice is to set this to W- Default Ask to YES.
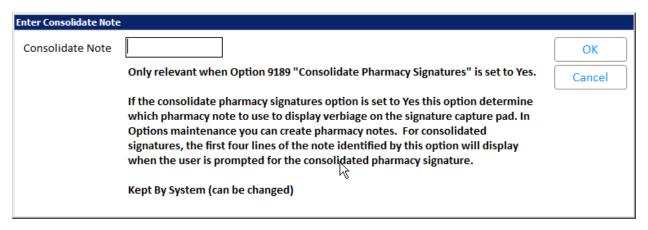

Option 9181

Enter Prompt For Consult

Prompt For Consult	N	No
	Y	Yes
	X	Default Ask to No
	W	Default Ask to Yes

OK
Cancel

Setting this option to Yes causes POS to prompt the clerk to ask the customer if they want a pharmacist consultation when the pharmacy SKU is sold.

Values X and W only work if option 9171 = P (PDX / EPS). When this option is set to X or W, if the PDX or EPS interface sends the value to prompt the clerk to ask the customer if they want a pharmacist consult, the interface will change the value to either Yes or No causing Eagle for Windows to not prompt the clerk to ask the customer for their pharmacist consult preference. Descriptor lines will post according to the rules when PDX or EPS sends a Yes or No.

Kept By System (can be changed)

Set this option to Yes to prompt the clerk to ask whether the customer needs a pharmacy consultation. Best Practice is to set this to X- Default Ask to NO.

Option 9183

Enter Pickup Signature Note

Pickup Signature Note	

OK
Cancel

If the pharmacy capture prescription pickup signature is set to Yes allows you to determine the verbiage that displays on the signature capture pad. In Options maintenance you can create pharmacy notes. The first four lines of the note identified by this option will display when the user is prompted to sign for their pharmacy pickup.

Kept By System (can be changed)

Setting this option to YES allows you to change the verbiage that is displayed on the signature capture pad. The notes that are displayed here can be created in Options Maintenance.
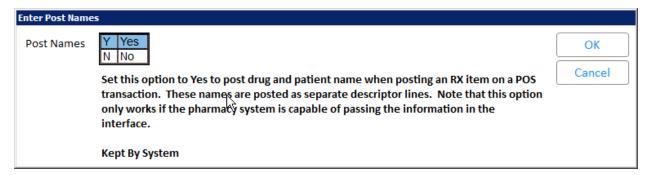

Option 9189

Set this option to YES to allow for consolidated pharmacy signatures.

Option 9190

Enter Consolidate Note

Consolidate Note [ ]

OK

Cancel

Only relevant when Option 9189 "Consolidate Pharmacy Signatures" is set to Yes.

If the consolidate pharmacy signatures option is set to Yes this option determine which pharmacy note to use to display verbiage on the signature capture pad. In Options maintenance you can create pharmacy notes. For consolidated signatures, the first four lines of the note identified by this option will display when the user is prompted for the consolidated pharmacy signature.

Kept By System (can be changed)

Use this option to direct the Eagle system to the note to be used for Consolidated Pharmacy Signatures.

Option 9565

Enter Post Names

Post Names

Y	Yes
N	No

OK

Cancel

Set this option to Yes to post drug and patient name when posting an RX item on a POS transaction. These names are posted as separate descriptor lines. Note that this option only works if the pharmacy system is capable of passing the information in the interface.

Kept By System

Set this option to yes to post drug and patient names when posting RX item on Point of Sales Transactions. This option only works if the pharmacy is capable of passing information on the interface.

Option 9765

This option allows you to determine the quantity of delivery prescription tickets to print.
