Installing and Launching Epicor ReCoder Transcript

Epicor ReCoder is a powerful UI Automation tool that enables automated test generation to fast track your automation journey. It enables generation of robust, repeatable, and stable web automation test code.

Follow along with this video to learn how to download and enable Epicor ReCoder.

We'll cover the requirements, installation process, and how to launch it.

The tool requires a Chromium based browsers of V116 or later. We suggest Microsoft Edge or Google Chrome.

This example outlines the install process Using Microsoft Edge.

Begin by downloading the extension from the help site.

Find the downloaded zip file on your system. Right click and select Extract All.

Choose the destination and select Extract.

When the extraction completes, open your web browser.

Expand the 3-dot menu.

Choose Extensions from the menu options.

An extensions icon appears on your browser with an open information box. In that box, select Manage Extensions.

When the extensions screen loads, ensure you are on My Extensions. Then, if it's not already, enable Developer mode.

With Developer mode enabled, several new options appear, select Load unpacked.

Navigate to the extracted folder on your system and double click to open it.

In that folder, find the folder labeled epicor-test-recoder, select it, and press Select Folder.

A new extension should appear under your installed extensions called Epicor Test ReCoder.

Now you're ready to open it in your system environment.

Navigate to your Epicor system homepage.

Select the extensions icon from your browser bar.

From here, you can launch Epicor ReCoder, but first we want the extension's icon to remain visible, so select the eye icon to show in toolbar.

To launch the feature, click the icon and select inject!

The ReCoder appears in a floating window within your browser, and is ready to be used.

When done using Epicor ReCoder, select the extension icon again and choose Stop.

Good work following along with this video, you should now be able to download, install, and launch Epicor ReCoder.

About Epicor

Epicor Software Corporation drives business growth. We provide flexible, industry-specific software that is designed around the needs of our manufacturing, distribution, retail, and service industry customers. More than 40 years of experience with our customers' unique business processes and operational requirements is built into every solution—in the cloud, hosted, or on premises. With a deep understanding of your industry, Epicor solutions spur growth while managing complexity. The result is powerful solutions that free your resources so you can grow your business. For more information, connect with Epicor or visit www.epicor.com.
