Optimizing Epicor Learning Center Playback

If you are experiencing any sound or video issues with Epicor Learning Center (ELC) Training on Demand courses, check the following to ensure that you are optimizing playback performance.

Checking browser version and updates: Use this link to identify your browser and determine if it is up to date:

<https://www.whatismybrowser.com/?ref=whatismybrowser.com>

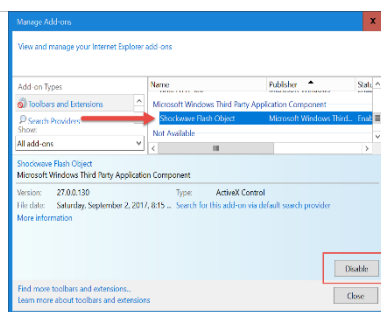

Once you have scanned and completed any recommended updates, close all browser sessions, and then try the course again. If that does not allow the course to play properly, here are some things to check/change:

1. Enable Active X (IE) / Flash (Chrome)
2. Enable Cookies
3. Disable Popup Blockers
4. Update Trusted Site
5. Clear Browser History
6. Check Virus Software Conflicts

Enable / Update Flash Player

Internet Explorer

From the gear icon, select Manage add-ons.

In the pop-up dialog box, select Toolbars and Extensions.

In the list of add-ons, search for "Shockwave Flash Object" (another name for Flash Player).

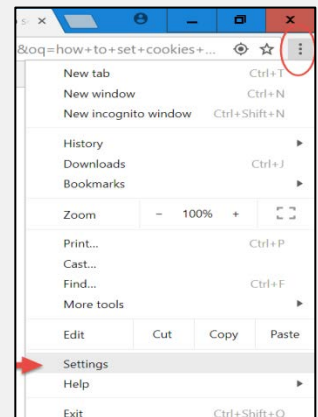

In the Status column, check to see if the Shockwave Flash Object option is disabled. If so, click on the corresponding row to highlight the object.

Click the Enable button in the lower right corner.

Close the Manage Add-ons dialog box.

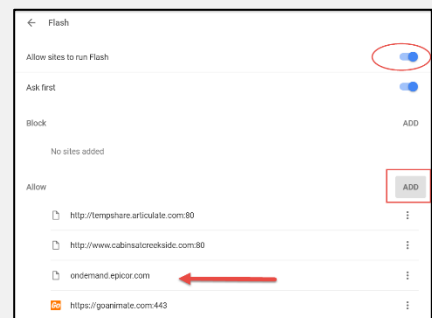

Chrome

Click the ellipses in the upper right corner and select Settings from the menu.

Select the Advanced option and under the Content Settings Menu; select the scroll down arrow so you can see all options available for set up.

Locate Flash and open the menu to confirm that your settings allow access to ondemand.epicor.com

Enable Cookies

Internet Explorer

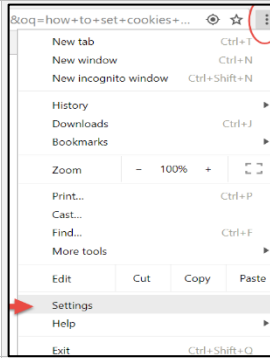

From the gear icon, select Internet options.

Under the Privacy tab choose the Advanced option and verify your settings as follows:

Chrome

Click the ellipses in the upper right corner and select Settings from the menu.

Select the Advanced option and under Content Settings Menu; select the scroll down arrow so you can see all the options available for set up.

Locate the Cookies menu and set Allow Sites to save and read cookie data.

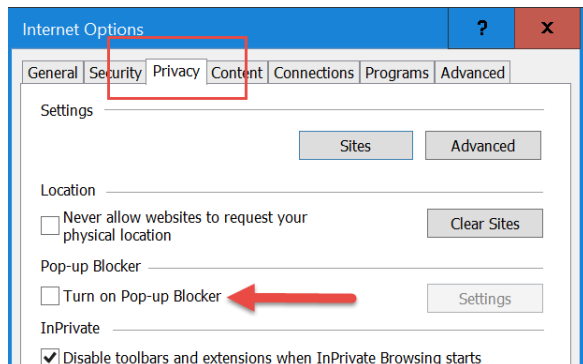

Disable PopUp Blockers

Internet Explorer

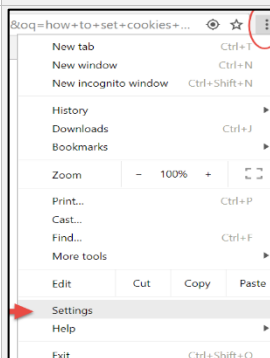

From the gear icon, select Internet options

Under the Privacy Menu make, sure Pop-up Blocker is **not** checked.

Chrome

Click the ellipses in the upper right corner and select Settings from the menu.

Select the Advanced option and under the Content Settings Menu select the scroll down arrow so you can see all the options available for set up.

Locate Popups menu and Confirm that your settings allow access to ondemand.epicor.com

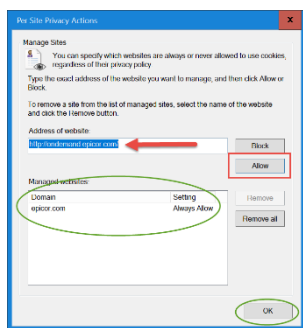

Add ELC Related Sites to Trusted Sites

Internet Explorer

Click the Tools icon in the upper right corner (the icon is shaped like a gear) From the Privacy tab, click the Sites button.

Add the following by entering the full addresses and clicking the Allow button. Click OK to save:
<https://ondemand.epicor.com>
<https://cloud.scorm.com>

Chrome

Click the ellipses in the upper right corner and select Settings from the menu.

Select the Advanced option and under Content Settings Menu select the scroll down arrow so you can see all the options available for set up.

Locate System Settings and select the box on the Far right across from Open Proxy Settings. On the Privacy Menu select Sites and add the following by entering the full address and clicking the Allow button; click OK to save.

<https://ondemand.epicor.com>
<https://cloud.scorm.com>

Clear Browser History

Internet Explorer

From the gear icon, select Manage Add-ons. From the General tab set your computer to Delete browsing history on exit or click the Delete button to see your settings and run the process manually.

Chrome

Click the ellipses in the upper right corner and select Settings from the menu.

Select the Advanced option and under Content Settings Menu select the scroll down arrow so you can see all the options available for set up.

Locate Clear browsing data menu and select Browsing data.

Locate Clear browsing data menu and

Check for Virus Software Conflicts

PC utilization can peak due to other programs running either within the browser or on PC itself. For example if a Virus Software starts to run on the PC while user is engaged in a course will slow the PC and decrease its utilization.

We have one more thing you can check. After you have already reviewed that you are allowing Flash Player and you are not blocking cookies and the sites are listed as a trusted sites in your browser security settings and you continue to have issues. The problem may be that your Firewall is configured to block the video content from loading. We recommend working with your local IT team and review your firewall settings.
